

## **Doctor of Naturopathic Medicine**

We are looking for a passionate, driven and motivated Naturopath to join our growing multidisciplinary team. The successful applicant should be looking for an environment to grow as a practitioner in a low stress and supportive environment.

We believe that patient-centered care and a one-on-one experience will allow the best healing environment for our clients. Movement Health strives to create an environment where the therapist feels supported and valued, has a great team and support system in place and can grow their practice surrounded by other professionals encouraging them to learn and better their knowledge on a daily basis.

Our office stresses PREVENTATIVE health care by encouraging regular exercise, movement, body awareness and proper supportive nutrition. Movement Health is looking for the *RIGHT* professional to join the team, who is excited to work together with their patients to educate and improve overall health goals.

**Setting Type:** Multidisciplinary Clinic

**Required:** Successful completion of the Doctor of Naturopathy Degree with a license in good standing to practice in Ontario, and be able to demonstrate a high ability to apply theoretical knowledge into practice while using problem-solving skills.

- Requires the ability to safely coach, educate and navigate clients with co-morbidities and for sport/athletic conditioning/goals.
- Insurance liability to practice

**Knowledge and/or certification in the following will be an asset:**

- Interest in strength and conditioning
- Neurofunctional acupuncture (McMaster Program will be preferred but not required – any acupuncture or dry needling knowledge)
- Interest in strength and conditioning
- Sports-related injury interest or previous experience with this population an asset
  - We work closely with a Strength and Conditioning facility in the same plaza alongside coaches who work with some of the top-level athletes in the area

**Professional should be able to:**

- Work and manage a caseload independently and with other multidisciplinary team members.
- Candidate will be required to conduct assessments, develop care plans, provide treatment to patients and evaluate progress.
- Maintain accurate and complete clinical records for each client and submitting reports to the referral source if necessary.

**Rate of Pay**

- TBD – percentage split of caseload.
  - Determined once the right candidate has been chosen

\*\* New graduates are welcome to apply and encouraged. Successful candidates will be contacted. Please send an email to [info@movementhealth.ca](mailto:info@movementhealth.ca) with a cover letter and CV.
